SUPPORT AFTER STROKE

Hospital	May Total	Cumulative Total Consented	Cumulative Total Randomised
Peninsula Health	3	23	15
Monash Health	0	14	12
Royal Adelaide Hospital	3	11	9
Alfred Health	2	6	6
Sunshine Coast	0	3	3
Eastern Health	0	1	1
Austin Health	0	1	1
Royal Prince Alfred	0	0	0
Total	8	59	47
Target	32	-	890

May updates

- On 15th May we got primary HREC approval for changes to recruitment processes, allowing the use of e-consent which will allow you to capture participants who may have been missed while an inpatient. We look forward to providing training relating to the changes via Zoom very soon.
- The related documentation required for your site governance amendment was circulated to your teams on 18th May. If you have not received this or you need assistance to complete your application please contact the ReCAPS team (contact details below).
- Congratulations to the teams at Peninsula Health and Royal Adelaide who have once again won recruiters of the month with another 3 participants each! Well done.
- Now that restrictions are slowly relaxing, we hope staff can resume their normal roles and have capacity to recruit participants again. We still have a long way to go to reach 890 so its important that recruitment starts to really gain momentum for the trial to meet its target. It would be amazing if each site were reaching their recruitment target of at least 4 participants per month.
