Total	9	206	172
Target (Month - Overall)	36	-	890

*excludes participants with pending 7-14 day calls, those who are withdrawn and ineligible

March Updates:

- We were delighted to reach an important milestone last month, with Erin Li from Royal Prince Alfred recruiting the 200th ReCAPS participant. Thank you to each and everyone of you for your support and dedication to help us get to this point. We look forward to reaching the next 200 even quicker now that you have helped us to streamline the processes for improved efficiency.
- An article describing the ReCAPS protocol has been submitted to the International Journal of Stroke and is currently under peer review.
- Royal Prince Alfred are really in full swing at the moment and Dawn had a productive training session with a new member of the ReCAPS team for RPA called Lucy Nolan. Please join us in welcoming Lucy to the collaborative.
- ReCAPS HQ will be losing Dawn from her full-time status as she has made a decision to move closer to family in Europe this month. She will continue to assist the team remotely, as needed. ReCAPS HQ want to say a big thank you to Dawn for her dedication and skills in co-ordinating the trial. We wish her every good fortune and happiness back in Europe

How can we help?

Numbers have dropped significantly this past month. Please let us know how we can help support you so that as many people as possible are provided with the opportunity to participate in ReCAPS.

Did you know that if you are really stuck for time the ReCAPS HQ team can complete the baseline assessments for you as long as you obtain signed consent. Please contact Jan or Dawn to find out more.
