## May Updates:

- We send our thoughts to all our Victorian colleagues for the latest lockdown.
- Feedback from the clinician interviews is helping us to improve our processes. Thanks to all of you who took part in the first round of interviews. For those who asked, it is definitely OK to save an incomplete form on REDCap and return at a later point. The prompt you see when you return is automatic to assist our auditing but it is fine to save again.
- When a form is missing some information that you plan to come back to please save it as "incomplete" (red) and only save it as "unverified" yellow when you have entered all the data.
- If you need to save to just add a comment on a newly opened form please use "SAVE and STAY" (one of the save options in dropdown).
- We are delighted to announce that our new trial coordinator, Olivia Branacatisano, will be starting with ReCAPS next month.

## Help us to help you!

Did you know that if you are really stuck for time the ReCAPS HQ team can complete the baseline assessments for you as long as **you obtain signed consent**. Please contact Jan to find out more.
