<b>Target (Month - Overall)</b>	<b>52</b>	<b>N/A</b>	<b>890</b>

\*excludes participants with pending 7-14 day calls, those who are withdrawn and ineligible

### September Updates:

- Awesome progress with 1 in 2 participants recruited this month completing their baseline forms online and several used e-consent. Congratulations to The Austin, Eastern Health and Peninsula Health for implementing these processes.
- A training video and updated procedure manual outlining e-consent and online baseline surveys will be loaded onto the study iPads in the coming week. *If you have any questions or would like further instructions please contact Jan or Olivia.*
- There are **293 unresolved data queries** to be addressed in REDCap. Thanks to everyone involved in resolving these ReCAPS data queries. We would appreciate resolving your data queries in the next month.
- Sharing some positive feedback from ReCAPS participants: "*Connection that someone out there to touch base with someone going through stroke*" and "*You should be very proud of the work you do. I have enjoyed and used your input*".

### Help us to help you!

Each month we are scheduling zoom meetings to touch base and discuss issues or provide extra training. Please contact Jan or Olivia if you have a specific question or issue to discuss.
