Sunshine Coast	0	11	10
Total	6	276	222
Target (Month - Overall)	52	N/A	890

*excludes participants with pending 7-14 day calls, those who are withdrawn and ineligible

November Updates:

- In the last 2 months we have reduced our unresolved data queries in REDCap from 293 to 196. This is a fantastic effort! As we near the end of the year, please ensure that there are minimal open data queries from your site. These can be addressed by clicking 'Resolve Issues' under the 'Applications' heading in REDCap. 
- E-consent can be a good option for those participants who would like some extra time to consider ReCAPS after discharge. If this is the case, please give the participant a ReCAPS study pack to take home. It is very important that we still collect their baseline assessments within 14 days of their stroke admission- please let Olivia know if you need assistance with completing these. For more information see Chapter 2 in the Study Manual.
- Please let Olivia know if there have been any changes to your role or any staffing changes due to COVID or other reasons.

Help us to help you!

Each month we are scheduling zoom meetings to touch base and discuss issues or provide extra training. Please contact Jan or Olivia if you have a specific question or issue to discuss.
