### January Updates

- Happy New Year from the ReCAPS team! Thank you all for your efforts, despite the difficulties faced with the Omicron variant and Code Brown in Victorian hospitals.
- Given it is the start of a new year, we have sent an email around to assist in making sure that your study files are in order and up to date.
- The study iPADS have been updated. This may mean that you need to sync or refresh when you next use the device to access the updated documents.
- Only 9/24 responses have been received for the ReCAPS feedback survey. This survey is very important with regards to our process evaluation. If you haven't already, please complete it at your earliest convenience.

2022 site target = 1-2 participants per week
