Total	10	319	254
Target (Month - Overall)	52	N/A	890

*excludes participants with pending 7-14 day calls, those who are withdrawn and ineligible

April Updates:

- A fantastic effort by Lily at Alfred Health (VIC) and Erin at Royal Prince Alfred (NSW) with the number of participants recruited this month! It is exciting to see recruitment picking up.
- When you are stuck for time, our ReCAPS staff are available to complete baseline assessments after consent has been obtained. If this is the case, please scan and send a copy of the **screening checklist** to Olivia. For more detail, please refer to Chapters 1 and 2 of the procedure manual.
- One of our recent reports indicated that 'clinician time restraints' account for only 8% of assessments performed outside the specified baseline timeframe - this is an excellent effort and greatly appreciated.
- In the coming month, clinicians who have not yet completed the online survey as part of the ReCAPS process evaluation will be called to conduct it over the phone.

Help us to help you! Next meeting 04/05/2022

Each month we schedule a Zoom meeting to touch base, discuss issues or provide extra training. Please contact Olivia if you have a specific question or issue to discuss.
