June Updates:

- There are only 26 weeks until the end of 2022. To get close to our goal of 668 participants by the end of the year we are asking each site to recruit at least

1 participant per week

- Please let Olivia or Jan know if you need any assistance with the completion of baseline assessments as this can reduce the time it takes to recruit a patient.
- The 'screening tracking log' is a time effective way to document screened patients as you go around the ward. This has been saved to your iPads under the folder 'ReCAPS study forms'.
- The Quarterly Report for April-Jun will be emailed to your site shortly. These reports are a good indicator of how your site is progressing with recruitment.
